Over 30 Years of Healthcare Expertise and Profound Heritage in Healthcare Unveiled at

MEDICANA ATAKÖY!

Since 1992, Medicana Health Group has been providing healthcare services with a patient-centered approach and a modern healthcare vision, remaining true to its principles. Now, the Group crowns its substantial journey in healthcare with Medicana Ataköy Hospital. Nestled along the coastline where the green of nature and the blue of sea meet, Medicana Ataköy Hospital brings healthcare services to Istanbul and the patients from all around the world. Designed with contemporary and next-generation hospital architecture, our new hospital is poised to serve a myriad of medical disciplines. Guided by Medicana Health Group's core quality principles, Medicana Ataköy Hospital offers patients multidisciplinary diagnosis and treatment methods, emphasizing patient safety, comfort, and quality. Blending hotel-like comfort with hospital architecture, the hospital meticulously caters to patient and companion expectations in patient rooms, waiting areas, and diagnostic units. While parking, transportation, emergency access, and specialized patient rooms are meticulously designed for increased comfort of companions, the experienced, contemporary, and innovation-driven academic staff, coupled with advanced technology, integrates specialized treatments with modern approaches, fulfilling all expectations as a comprehensive healthcare institution.

MEDICANA  **HEALTH GROUP**

Medicana Health Group, with over 30 years of service, stands distinguished by its academic staff, patient and companion satisfaction approach, and a modern, innovative vision in the healthcare sector. The Group now crowns its growing aspirations with the inauguration of Medicana Ataköy Hospital.

Nestled where the green nature and the blue of sea unite, Medicana Ataköy Hospital extends healthcare services to both Istanbul and the patients all around the world. With its contemporary and innovative hospital architecture, the hospital serves across a spectrum of medical disciplines.

DRIVEN BY SCIENCE AND TECHNOLOGY

Positioned as one of Istanbul's and Europe's comprehensive healthcare concepts, Medicana Ataköy Hospital seamlessly integrates specialized treatments and surgical options with a patient-centered approach. It extends its services to not only the European side of Istanbul but to the entirety of the city and the world. Strategically situated in key areas of the city, the hospital's central location enhances accessibility to Medicana's healthcare offerings.

Medicana Ataköy stands out as a hospital that has meticulously designed interior spaces for the comfort of patients and their companions. With an experienced, contemporary, and innovation-driven team, the hospital amalgamates specialized treatments with modern technology. This distinguished approach sets Medicana Ataköy apart as a beacon of healthcare excellence.

EVERY DETAIL DESIGNED AS PART OF THE HEALING PROCESS

In the architectural design of Medicana Ataköy Hospital, every detail has been meticulously crafted with the comfort of patients, their companions, and staff in mind. Waiting rooms, outpatient clinics, doctor and patient rooms have all been thoughtfully designed to cater to everyone's needs. From color choices to interior layouts, from lighting to accessories, every element within the hospital has been carefully considered to contribute to the healing experience.

Equipped with cutting-edge imaging units, specialized laboratories, operating theaters, and intensive care rooms, the hospital stands as a modern healthcare institution, dedicated to being at the side of its patients.

MULTIDISCIPLINARY TREATMENT... COMFORTABLE AND MODERN HOSPITAL CONCEPT...

Rooted in Medicana Health Group's fundamental quality approach, Medicana Ataköy Hospital is designed to offer a multidisciplinary diagnosis and treatment approach, prioritizing patient safety, comfort, and quality. At Medicana Ataköy, the next generation hospital architecture meets the comfort of a hotel, with patient rooms, waiting and outpatient areas, diagnostic units, parking facilities, emergency access, and transportation options all designed around the comfort expectations of patients and their companions.

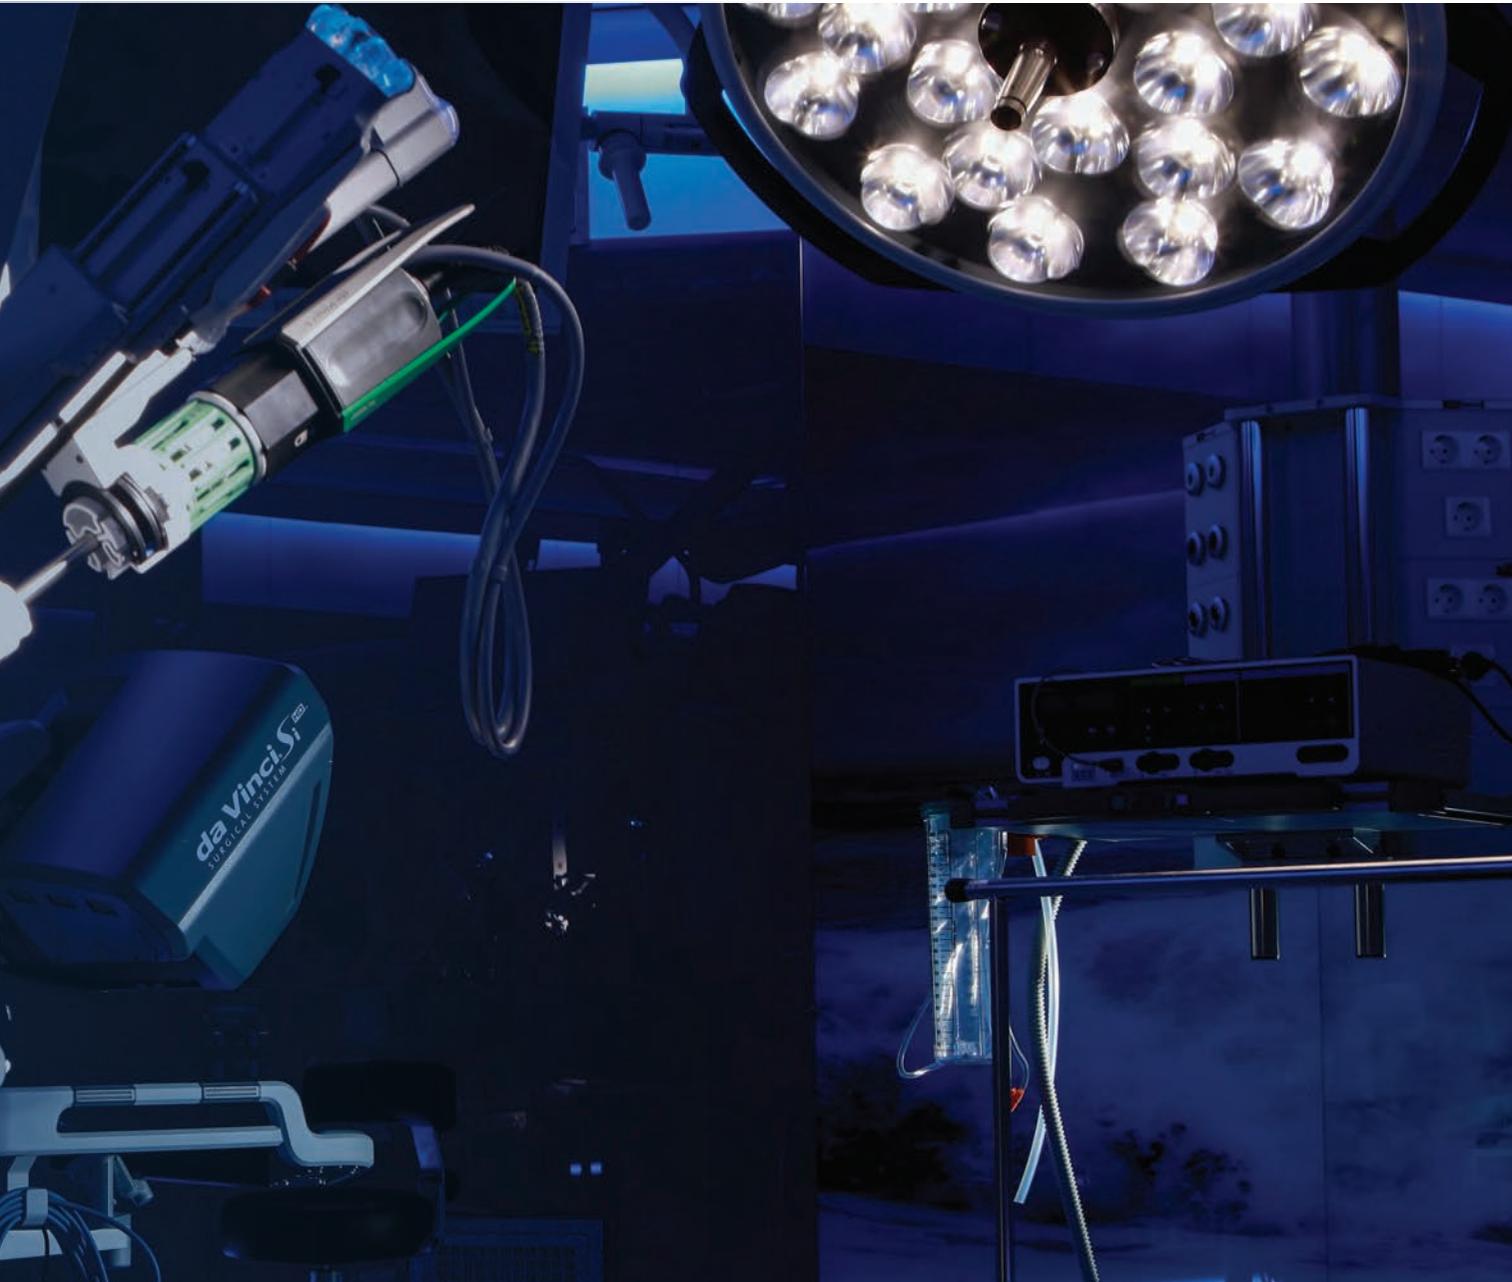

Positioned in the beautiful neighborhood of Ataköy, on the European side of Istanbul, the hospital has been designed taking into account the effects of the blue of sea and the green of nature on human health. Considering Turkey's vulnerability to earthquakes, Medicana Ataköy's building was constructed with all necessary precautions against earthquakes. The building was designed in accordance with the 2018 Earthquake Regulations, ensuring earthquake resistance and safety through state-of-the-art systems.

THIS IS MEDICANA ATAKÖY

What makes Medicana Ataköy stand out:

- Use of up-to-date technology in the field of specialized treatment
- Digital patient recognition and referral service
- Robot-assisted treatment and rehabilitation in both surgical and physical therapy specializations
- Innovative and contemporary Diagnosis and Treatment Center equipped with an expert staff and technological infrastructure
- Completely patient and companion-oriented service
- Specific treatment in surgical branches
- Carefully crafted modern patient rooms and waiting areas, designed with every detail in mind
- Architectural design that uplifts patients' well-being during their hospital stay
- Pediatric service designed for children to enjoy between examinations and procedures
- Spacious operating rooms enhancing the comfort of surgical units
- Hospital interior design featuring nature-inspired color tones and natural materials for patient comfort
- Technological infrastructure promoting fresh air circulation within the hospital
- State-of-the-art neonatal, coronary, and intensive care units
- Patient rooms designed with modern aesthetics for comfort and safety, including king, suite, and standard rooms
- Updated and advanced radiological imaging devices for comprehensive diagnosis
- Rooms tailored for disabled patients

ACCESIBLE HEALTHCARE SERVICE

Like all Medicana hospitals, Medicana Ataköy harmonizes comfort and quality for its visitors, with a steadfast focus on patient safety, service continuity, and integrity. Embodying the distinguished attributes of contemporary hospital architecture, Medicana Ataköy Hospital caters to the expectations of patients and their companions in its patient rooms, waiting areas,

outpatient clinics, as well as diagnostic units. Moreover, strategically situated in a central hub on the European side, Medicana Ataköy aspires to become an accessible healthcare center for international patients.

HOLISTIC APPROACH IN MEDICINE

In modern medicine, the establishment of medical boards enhances the success rates in treatment of complex cases. At Medicana Ataköy, the entire approach is built upon the concept of medical boards. This enables all physicians and experts to access the most up-to-date information in the literature, contributing to the overall effectiveness of treatments.

TECHNOLOGY-FRIENDLY HOSPITAL

As a technology-friendly hospital, Medicana Ataköy ensures comprehensive patient care from diagnosis to the completion of treatment. Utilizing advanced equipment in imaging examinations and supported by robotic surgery, the treatment phase is meticulously executed. Moreover, the realm of physical therapy offers effective and result-oriented treatments, particularly in stroke cases, through the utilization of robotic rehabilitation techniques.

MODERN OPERATING ROOMS SEAMLESSLY INTEGRATED WITH ART

The surgical team, spending a significant part of their day in the operating theater, works in a surgical environment adorned with artistic impressions, modern colors, and lines. At Medicana Ataköy Hospital, the operating theaters greet doctors and the entire healthcare team with the healing touch of art, providing a space where art meets modernity.

KING, SUITE AND STANDARD ROOMS

Uplifting patients' psychological state along the journey of healing holds equal significance with physical recovery. Guided by this understanding, the patient rooms at Medicana Ataköy Hospital are designed with the comfort of patients and their companions in mind, featuring natural colors and materials. Furthermore, from the bookshelves to the objects within the rooms, every detail aims to make patients and their companions feel better.

KING ROOMS

In our King Rooms, alongside essential needs, there is a spacious and refreshing environment that ensures both patient and their loved ones are at ease. The King Rooms, complete with private bathrooms for both patient and companion, offer a range of exclusive services. Carefully curated for a cozy home-like ambiance and hotel-grade comfort, these rooms also feature mini bars stocked with essential amenities for the patient and their companions.

SUITE ROOMS

Our Suite Rooms not only cater to the essential needs but also include a dedicated waiting area for the comfort of accompanying family members. Each room features a private bathroom for both the patient and their companion. Our Suite Rooms offer an array of services, ranging from a mini bar to television, and even newspaper service, ensuring a comprehensive and thoughtful experience.

STANDARD ROOMS

Within Medicana Ataköy, thoughtfully designed standard rooms are available to meet the needs of patients and their companions. These rooms provide a seamless response to the fundamental requirements of both patients and their loved ones, featuring amenities such as a mini bar, television, internet, and newspaper service.

PEDIATRIC ROOMS

Specially crafted pediatric rooms offer a delightful environment for children, ensuring they have an enjoyable time distinct from the adult rooms. Additionally, within the pediatric surgical area, a range of technological solutions are in place to enhance the comfort of both patients and their companions.

Appealing to individuals of all ages, Medicana Ataköy is a holistic masterpiece, meticulously designed with social spaces, landscape arrangements, and comfortable waiting areas. With the added support of technology, the healthcare needs of the future are taken into consideration.

At Mediana Ataköy Hospital, a beacon of medical innovation, multidisciplinary treatments are tailored to patients across a spectrum of planned clinical specialties.

ABOUT MEDICANA GROUP

Since its establishment in 1992, Medicana Health Group has been at the forefront of the private healthcare sector, offering the possibilities of modern medicine to its patients with a workforce exceeding 10,000. Operating across Istanbul, Ankara, Izmir, Konya, Samsun, Sivas, and Bursa, the group continues its mission with 15 hospitals strategically placed throughout these cities. With its investments and exceptional services, Medicana Health Group has secured its position among the pioneers of the private healthcare industry. The group's hospitals are a choice of preference for international patients seeking treatment, thanks to their contemporary architectural designs, esteemed academic staff, technological advancements, medical capabilities, and resounding achievements in the healthcare sector. Championing education as passionately as healthcare, Medicana Group founded the Medicana Education Group with the vision of 'educating the entirety of an individual'. In the 2018-2019 academic year, the group inaugurated the Modern Sciences Academy (MBA) Schools. MBA, with campuses across various Turkish cities, steadfastly works towards becoming the country's premier educational institution. In the same vein, the Fenerbahçe University established by Medicana Education Group for the 2019-2020 academic year aspires to foster individuals proficient in global languages, with an open-minded and innovative approach, ensuring their social and academic evolution while striving to be counted among the world's foremost universities.
